Dear Parent(s) / Carer(s)

Maths GCSE Resources – Year 11

I would firstly like to say the manner in which the students approached the first Maths GCSE exam of the series was exemplary. The engagement of the pupils attending revision sessions and extra support has been very positive. We are all aware that exam season is a very busy time of year for our Year 11 students and feel that they need to be supported to the best of our ability as teachers and parents/carers.

With this in mind I would like to highlight a couple of useful resources which would be very useful for students to have access to over the half-term period. A paper 2 prediction with solutions is available. Please download and print off the appropriate tier of entry for your child. A Maths teacher will be available for assistance during your child's normal maths lessons and after school on Monday and Wednesday evenings:

- Foundation tier paper <https://www.mathsgenie.co.uk/resources/pred20182f.pdf>
- Foundation tier model solution <https://www.mathsgenie.co.uk/resources/pred20182fans.pdf>
- Higher tier paper <https://www.mathsgenie.co.uk/resources/pred20182h.pdf>
- Higher tier model solutions <https://www.mathsgenie.co.uk/resources/pred20182hans.pdf>

Another useful resource to be aware of is <http://www.onmaths.com/> - this is an online paper which allow pupils to get instant feedback and an estimated grade.

There will be a limited number of hard copies available from the Maths office.

Please do not hesitate in contacting me if you have any questions.

Yours faithfully

Simon Robinson
Head of Mathematics
